

Activities and places

Missione Possibile Svizzera initiates and supports humanitarian projects.

It intends to accomplish the following:

- to guarantee the fundamental rights to life, freedom and education
- to prevent abandon, abuse and child exploitation
- to guarantee appropriate medical care
- to invest in the new generations through education and schooling
- to promote micro-loans

Our two main fields of activity are:

MEDICAL CARE

through the [Mobile clinic](#) project in Cambodia
and through the [shipment of medicines](#) to Cambodia and Haiti

EDUCATION

through our support of the [Takeo school](#) project

We are operative in Cambodia and Haiti, but also in Myanmar and Laos, through our cooperation with our partner Missione Possibile Onlus.
